Insulating set for soup bowls

### INSULATING SET FOR SOUP BOWLS IN SPILL-PROOF DESIGN

The perfect solution for problematic transport routes, including off-facility distribution.

- **Extremely compact, space-saving version for maximum filling volume of 235 ml (7.95 fl. oz.)**
- Spill-proof design due to inside splash groove, prevents soups from slopping out during difficult transport situations, including off-facility distribution.
- Optimum heat retention for soups, purées, etc. over long period of time.

- Soup bowls are easy to insert and remove, making the handling simple.
- The high-quality finish ensures durability and an attractive look.
- All components are available in a wide range of colours.

## SPILL-PROOF, COMPACT DESIGN

HOSPITALA

Dark side of the cover to avoid visible discolourations

Available in different colours

Perfect fit not only for soup, but also for any kind of side dish, dessert or sauce

Internal spill-stop groove

Double-walled, insulated

Tray assembling for lunch

### TECHNICAL FEATURES

- Thermoplastic insulating set, double-walled, insulated, homogeneously welded, with CFC-free special foam.
- Insulating cover in two-colour design, dark side of the cover avoids visible discolourations caused by food with intense colour pigments.
- Coloured granulate can be used for uniform through-colouring. This also helps prevent colour fading.
